Daycare & Learning Center abuse is a National problem and rising.

According to the National Child Abuse and Neglect Data System, more than 3.5 million reports from CPS agencies were received in 2013 alone.

Digital Guard Surveillance “Think Kids Safety Program”, is a custom High-definition camera system that is exclusively installed in Childcare Centers and Learning Academies, to ensure the safety and security of all children, staffs, parents, and visitors.

Digital Guard Surveillance “Think Kids Safety Program”, offers live real time streaming video that parents can log into to view their child while at a childcare facility. For a low monthly fee of \$27.00 per month parents will be assigned a secure username and passwords issued by the Daycare Director, Learning Center Director and Digital Guard staff. This will allow parents to log on to the Daycare Centers or Learning Centers cameras & view their children only in assigned *designated areas where their child is*. The Think Kids Safety Program is completely secure & password protected to authorized users only. Every parent or guardian MUST pass a background check before they are approved to participate in the Think Kids Safety Program.

Digital Guard Surveillance “Think Kids Safety Program”

With the number of working parents increasing there is nothing more important than parents having a peace of mind that their children are safe when dropping them off at daycare. Parents want to know that their children are safe when in the care of others, so Daycares and Learning Centers are installing security cameras to their facilities as a result to the high demand from parents.

By installing a Think Kids Safety Program System in your Daycare Center or Learning Center gives the parents a sense of security knowing that their children are not only being educated and taken care of by a qualified and safe Learning Center. Also that the entire campus is being monitored using live video surveillance.

According to the National Child Abuse and Neglect Data System, more than 3.5 million reports from CPS agencies were received in 2013 alone.

How Does It Work? Our systems can be viewed through any Internet Connection (with a username and password). The parents simply browse the Daycare or Learning Center App and logs in. The usernames and passwords are encrypted to provide additional security from unauthorized access. The childcare center can be accessed from any computer with an Internet connection and standard web browser. Parents and Providers can view video from home, work, or while traveling with a smart phone, tablet or laptop computer. It's as simple as 123.
